

2050

Deepika

Earth Root Foundation, New Delhi

Howdy mate! Show me what you got?
Does it still run on petrol? You haven't changed it
yet?

See this green label, i've got solar energy, my
ace!

Two and four wheelers, all are eco safe;

My rain water harvesting system, works smooth
as butter,

We saved enough water, sure can lend you few
liters,

Thanks mate! You'll be our saviour,
We were worried to death, bcoz of my son's stupid
behavior;

Will ya be joining this 999th planting drive?
This time we got lost and forgotten landfills to
revive,
Sure man, count me in,
Will do anything to escape those charges that last
time got me in;

Mate, this is 2050, and you're still not thinking
right!

Look at the state we are in, isn't this enough to
give you a fright!?

Make peace with nature, help in its recovery,
Working together for our future and rejuvenating
discovery.
